RASPBERRY

The management, processing and marketing

Publisher

Scientific Pomological Society of Serbia

Kralja Petra I 9, Čačak, Republic of Serbia

Editor in chief

Sanja Radičević, PhD

Reviewers

Prof. Zoran Keserović, PhD

University of Novi Sad – Faculty of Agriculture, Novi Sad, Republic of Serbia

Darinka Koron, PhD

Agricultural Institute of Slovenia, Ljubljana, Republic of Slovenia

Dr. Alena Gajdošová,

Institute of Plant Genetics and Biotechnology,

Nitra, Slovakia

Computer design and style

Darko Jevremović

Aleksandar Leposavić

Prepress

Radomir Bogdanović

Contents

WORLD RASPBERRY PRODUCTION	11
BIOLOGY AND PHYSIOLOGY OF RASPBERRY	15
Taxonomic tree, origin of novel cultivars and breeding objectives	15
Taxonomic tree.	15
Raspberry breeding objectives.	16
Biological properties of raspberries	16
Morphological characteristics	16
Physiological properties of raspberries	23
Growth, development and reproduction	24
The annual cycle of raspberry	26
GROWING CONDITIONS FOR RASPBERRIES	31
Agro-ecological conditions	31
Technical and organizational conditions	40
Socio-economic factors.	45
PRODUCTION OF PLANTING MATERIAL	47
Certification Scheme	47
Raspberry propagation	50
Generative propagation	50
Vegetative propagation	51
Tissue culture plants – micropropagation <i>in vitro</i>	53
Production of raspberry planting material in mother blocks	56
CULTIVARS	61
Red raspberry cultivars grown in Serbia until 1980s	62
Red raspberry cultivars bred at the Fruit Research Institute, Čačak ..	65
Red raspberry cultivars	68
Actual primocane and floricanne cultivars in the first decades of the XXI century.	68
Primocane fruiting cultivars	68
Floricanne fruiting cultivars.	72
Perspective red raspberry primocane cultivars	75
Perspective red raspberry floricanne cultivars.	76

Black raspberry cultivars	78
Yellow raspberry cultivars	79
Purple raspberry cultivars	79

PLANTING AND PLANTATION MAINTENANCE IN

THE FIRST YEAR	81
Site selection and planting	81
Plantation size	82
Organization of the land surface	82
Soil preparation	83
Land leveling and flattening	83
Suppressing perennial weeds	83
Ameliorative fertilization	84
Optimizing the soil pH	86
Plowing	87
Pre-plant soil preparation and row marking	87
Disinfection, disinsection and pest control	88
Training method	89
Planting	89
Plantation maintenance in the first year	91
Linear system	92
Hedgerow system	99
Building support and pruning floricanes fruiting raspberries	100

PLANTATION MAINTENANCE IN THE FOLLOWING YEARS	105
Selecting and tying of floricanes	105
Pruning and topping selected floricanes	107
Soil management	107
Fertilization	109
Foliar fertilization	111
Fertigation	112
Primocane suppression	115
Irrigation	116
Irrigation norm	117
Irrigation systems	118
Types of irrigation	119
Irrigation management	124
Preventing fruiting laterals breakage	125
Pollination	125
Removal of spent canes and thinning of primocanes	128

PEST AND DISEASE MANAGEMENT IN RASPBERRY	131
Methods of raspberry protection	132
Raspberry diseases	133
Fungal diseases	133
Bacterial diseases	145
Virus and virus-like diseases	149
Raspberry pests	155
Common raspberry insect pests	156
Polyphagous pests	168
Mites and ticks (Acarinae)	172
Nematodes (Nemathelminthes)	177
Weed management	178
Soil herbicides	179
Postemergence herbicides	179
Plant protection management	181
Spray equipment selection	181
Provision and preparation of pesticides	181
Pesticide application	182
Insect and disease spray schedule	183
Insect and disease spray schedule	185
ORGANIC RASPBERRY PRODUCTION	187
Conditions for establishing organic raspberry production	188
Spatial isolation	188
Proper site and soil selection	188
Uncontaminated soil	189
Proper selection of pre-crops	189
Cultivar and stock selection	189
Agro-technical measures	189
Pest, disease and weed management	192
Fungal diseases	192
Pests	194
Weed control	196
Disease and insect spray schedule (Organic farming)	198
GROWING RASPBERRIES IN PROTECTED AND SEMI-PROTECTED AREAS	199
Protected and semi protected production systems	201
Growing raspberries in protected areas	201
Growing raspberries in semi-protected areas	204

HARVESTING, TRANSPORT AND PROCESSING	209
Harvesting and transport	209
Ripening time and harvesting	210
Harvest management and harvesting systems	211
Classification of raspberry fruits	213
Transport of fresh fruits to the cold storage	214
Raspberry processing	215
Technological procedure of processing raspberry fruits by freezing	215
Processing of fresh raspberry fruits	223
 CALENDAR OF ACTIVITIES	 233
July (second half), August	233
September, October	233
November	234
December, January	234
February	234
March	234
April	234
May	235
June (first half)	235
June (second half), July	235
 QUALITY STANDARDS FOR RASPBERRY FRUITS AND PRODUCTS ..	 237
HACCP (Hazard Analysis and Critical Control Point)	237
GLOBALG.A.P.	238
 CALCULATION OF COSTS TO ESTABLISH RASPBERRY PLANTATION	 243
 REFERENCES	 247
